Klamath Basin
HBA today to find
out more!*

Don't have your certification? No problem!

Under new EPA rules that went into effect on April 22, 2010, anyone performing renovation, repair and painting projects that disturb lead-based paint (as little as 6 square feet) in homes, child care facilities and schools built before 1978 must be certified and must follow specific work practices to minimize occupants' exposure to lead hazard.

A full certification takes 8 hours to complete and will be held at 205 Riverside Drive at the KBHBA office.
