

Have You Completed Your Renovation, Repair or Painting (RRP) Certification?

Don't have your certification? No problem!

Under EPA rules that went into effect on April 22, 2010, anyone performing renovation, repair and painting projects that disturb lead-based paint (as little as 6 square feet) in homes, child care facilities and schools built before 1978 must be certified and must follow specific work practices to minimize occupants' exposure to lead hazard.

Certification takes 8 hours to complete and will be held at
Klamath Community College, Building 6, Room 6108, Klamath Falls, OR 97603
